PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in **AI & ML** with hands-on experience in **full-stack software engineering** using **Java, Spring Boot, React.js, MySQL, REST APIs, and Spring Security**. Built scalable applications supporting **500+ students** and **20+ REST APIs**, with hands-on experience in **secure authentication, database integration, and end-to-end application development**. Seeking a **Software Engineering** opportunity to deliver **scalable, client-focused solutions** and contribute across the **software development lifecycle**.

EDUCATION

B.Tech – Computer Science & Engineering (AI & ML),, *Vidya Jyothi Institute of Technology* 2023 – 2027 | Hyderabad
CGPA: **7.01**

Intermediate (MPC), *Impulse Junior College* 2021 – 2023 | Hyderabad
Percentage: **75%**

SSC, *Kerala High School* 2020 – 2021 | Korutla
GPA: **10**

TECHNICAL SKILLS

Programming Languages
Java,Python,SQL

Core Computer Science
OOP,DSA,Operating Systems,Computer Networks

Backend Development
Spring Boot,Spring Security,REST APIs,JWT Authentication,BCrypt,MVC

Tools & Technologies
Git,GitHub,Maven,Postman

Frontend Development
React.js,HTML5,CSS3,Bootstrap

AI & Machine Learning
Machine Learning Fundamentals, Scikit-learn, Data Analytics

Database
MySQL,DBMS

PROJECTS

Attendance Management System , *Java | Spring Boot | React.js | MySQL | Spring Security | JWT | REST APIs*

- •Engineered a scalable full-stack Attendance Management System for **500+ students across 6 academic batches**, automating attendance management for Students, Teachers, and Administrators.
- Developed **20+ RESTful APIs** supporting authentication, QR-based attendance, email verification, attendance history, dashboards, password reset, and report generation.
- Designed secure **role-based authentication** using Spring Security, JWT Authentication, and BCrypt Password Hashing to ensure secure access control.
- Implemented QR Code-based attendance tracking that reduced manual attendance processing by approximately **80%** while improving attendance accuracy.

AI Voice Assistant , *Python | Java | LiveKit | Speech Recognition | AI*

- **Developed** an AI-powered voice assistant capable of processing voice commands and performing **real-time task automation** using speech recognition technologies.
- **Integrated AI-assisted workflows** to optimize command execution and improve backend task efficiency.
- **Designed a modular architecture** supporting feature expansion and maintainability while enabling natural voice-based interaction.

CERTIFICATES

Machine Learning using Python
By Infosys

Data Analytics Essentials
By Cisco

Industrial Networking Essentials
By Cisco

ACHIEVEMENTS

First Prize – CSI Project Expo
Awarded **1st Place among 80+ competing teams** for designing and developing an AI-powered Voice Assistant, recognized for innovation, technical excellence, and practical implementation.

SOFT SKILLS

Problem Solving • Team Collaboration • Communication • Leadership • Adaptability • Time Management

INTERESTS

Gaming & Strategy-Based Games | Music & Creativity | Photography | Puzzle Solving

LANGUAGES

- English,Telugu,Hindi
